

HP Everyday Adhesive Matte Polypropylene, 3-in Core

The HP large format printing system—the complete solution

HP large format printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, reliability, and consistency—with every print.

High-quality prints for your day-to-day production

Produce eye-catching displays

See outstanding image quality. Work with the wide color gamut and smooth transitions delivered by this matte polypropylene material and produce quality prints from line drawings to photo-quality POP displays.

Gain efficiency

Help keep your production process moving smoothly. This easy-to-use film features a permanent self-adhesive for secure, reliable mounting.

Make the versatility of this material work for you

ICC profiles help you get the right color right away. Take advantage of compatibility with Original HP pigment- and dye-based inks and Original HP Latex Inks on this versatile, easy-to-use printing material.

Target customers	Applications	Benefits
Print service providers	POP and retail displays	Outstanding image quality for day-to-day production
Retail store in-house printing	Trade show and event displays	A permanent self-adhesive for secure, reliable mounting
Event designers	Temporary exhibitions	
Advertising agencies	Architecture competitions	
Geographic Information Systems (GIS)		
Government (printing self-adhesive maps)

Warranty	HP large format printing materials are free from defects in materials and workmanship. For warranty statement, please see HPLFMedia.com/hp/MediaWarranties . To obtain warranty service, please contact Brand Management Group customer support at HPLFMedia.com/hp/en/contactus .		

¹ See the HP REACH Article 33 Declaration published at [HP Printing Products and Consumable Supplies](#).
² Based on testing HP media printed with Original HP inks using a 3-mil vinyl film laminate that contains a water-based acrylic pressure-sensitive adhesive and a 3-mil vinyl film laminate that contains a solvent acrylic pressure-sensitive adhesive—the formulations of which HP believes represent the majority of cold film laminates that are commercially available based on historical testing. Films without the above-mentioned formulations may not be compatible.
